

Ergonomic Silicone Seam Rollers

Better Comfort, Better Sight Line, Better Clearance!

- Everhard engineering made a great roofing tool even better -- a new handle and an extended fork gives you a seam roller that's easier on your hands.
- Ergonomic cushion grip handle ► larger, more comfortable gripping surface.
- The extended offset fork ► more clearance than the standard fork between the handle and the work surface keeping your fingers and hands away from the heat source.
- The extended offset fork ► a better view of the point of contact on the work surface compared with the standard fork.

Silicone Seam Rollers

Silicone withstands high heat -- ideal for use with hot air guns!

- Available as standard models -- with 5" wood handle.
- Enclosed bearings for smooth rolling action.

MODEL #	DESCRIPTION	WEIGHT
MR05020	Silicone seam roller, 1-7/16" dia. x 1-3/4" wide	0.600 lbs.
MR05240	Silicone seam roller, 2" dia. x 2" wide, single fork	0.960 lbs.
MR05110	Silicone seam roller, 2" dia. x 4" wide, double fork	1.820 lbs.

Round-edge Rollers

- Round-edge steel rollers are perfect for detail and flashing work -- the roller's narrow diameter allows for secure seaming in tighter areas while its rounded edge helps prevent membrane damage -- it's much easier on the membrane than sharper-edged steel rollers.
- Available as standard models -- with 5" wood handle and enclosed bearings for smooth rolling action.
