

DRUM HEATERS

Powerblanket® Drum Heaters are one of the most popular lines of Powerblanket® products. The inventive, new design has changed the conventional method of heating materials. This design provides uniform heat to the entire surface of the drum, eliminating hot and cold spots.

POWERBLANKET DRUM HEATER STANDOUT FEATURES:

- Works on both steel and poly drums
- Insulated full-wrap design
- Uniform heat eliminates hot and cold spots
- Internal thermostats regulate temperatures
- Adjustable thermostatic controller (PRO model only)

WHY CHOOSE POWERBLANKET DRUM HEATERS?

- Preserve expensive materials without overheating or burning
- Peace of mind that materials are safely maintained at consistent temperatures
- Energy efficient design saves on operating costs
- Flexibility to adjust temperature (PRO model only)

OUR CUSTOMERS LOVE US

“Powerblanket® barrel and bucket heaters are a drastic improvement over the original band heaters we used to offer. With Powerblanket® products we no longer have to worry about overheating or unpredictable thermostats. Their patented technology provides uniform heat throughout the entire barrel of product, which is paramount to what we do. Powerblanket® products are very durable, look great, and are the only heaters we will offer our customers.”
