

GROUND THAWING BLANKETS

The high watt density in Powerblanket Ground Thawing Blankets helps tackle the difficulty of thawing ground in harsh climates.

WHY CHOOSE POWERBLANKET GROUND THAWING BLANKETS?

- High watt density thaws frozen ground
- Quickly remove frost prior to concrete pour
- Melt snow and ice from roofs, walkways, and construction areas
- Easily installed and removed
- Provides higher heat control when combined with a thermostatic controller
- Saves time, money, and labor

TIME SAVED

"Your blankets are absolutely excellent. Thanks to the Powerblankets® we were able to quickly thaw the ground and complete our job. In fact, we estimate a savings of 10 hours per site equaling a savings of \$5,000 already.

Calculating this to our thousands of sites, the savings is huge! We are excited about the time and money Powerblanket has saved us and look forward to future savings."

—Kim Herman OSP/COEI Operations Manager
Precision Utilities Group

MONEY SAVED

Walsh Construction saved more than \$5,43 for every \$1.00 spent on Powerblanket® heating blankets during a wintertime cold weather concrete job. They calculated this based on cost of labor and materials to build and move heated enclosures along two-and-one-half miles of a concrete canal wall built for the Illinois Waterway.
