

Strong Man Safety Products

Safety First. GO STRONG!

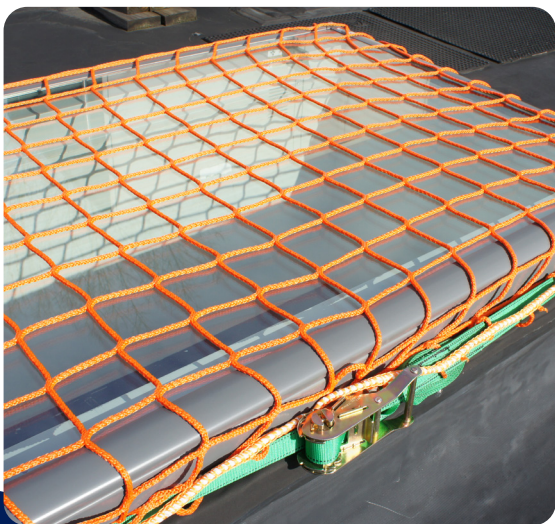

Strong Net Skylight Cover

Strong Net Skylight Covers are a cost-effective, portable way to protect personnel performing roof work. Lightweight and durable, nets install quickly by fitting over skylights and hatch openings using adjustable strapping cinched with ratchets.

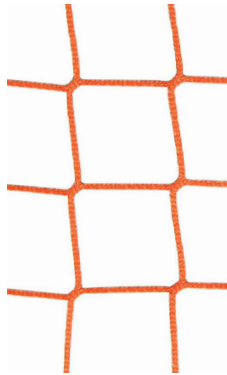

- Easily Transported and Installed
- Compacts and Stores Quickly
- Custom Sizes Available
- Complies to OSHA 1910.28

Strong Net Skylight Covers are designed for raised lip skylights or hatch openings that have a minimum 2-inch vertical lip surface. Easily reposition to ensure the safety of workers and comply with OSHA regulations and requirements.

MATERIALS

Strong Net Skylight Covers are manufactured using Safety Orange 3/16" High Tenacity Polypropylene (HTPP) with a 4 inch square mesh. HTPP fiber is highly resistant to abrasion, light weight, and is resistant to moisture and chemical exposure. Each Strong Net Skylight Cover is reinforced with sewn rope borders.

Strong Net Skylight Covers come with 1 1/2" green web strapping and attached ratchet.

STOCK OR CUSTOM SIZES AVAILABLE
